

Herb Lacey, USPTO-Registered Patent Agent

Herb Lacey is a dual-degree USPTO-registered Patent Agent with a superlative track record of successful "hands on" claim drafting and patent prosecution experience. Herb received his Masters Degree in Computer Science at North Carolina State University, Raleigh, and his B.S. in Electrical Engineering, *cum laude*, at North Carolina State University, Raleigh. Herb's experience comprises almost four years of patent preparation and prosecution, including both software network functionality method inventions and electrical hardware inventions. Herb has successfully patented computer-implemented inventions which faced initial 35 USC §101 *Bilski-Alice* rejections by delicately tailoring the Claims, and by positively working with USPTO Patent Examiners, to highlight the novel points of the inventions until the USPTO allowed and granted the patents.
